MSPAlliance® Est. 2000
International Association of
Cloud and Managed Service Providers

# SOC 1 / SOC 2

## Part of the MSP/Cloud Verify Program

MSPAlliance® Est. 2000
International Association of Cloud and Managed Service Providers

# SOC 1 / SOC 2

# SOC 1 Overview

**Service Organization Controls (SOC) 1 reports are** reports available to MSPAlliance members on their services that are specifically intended to meet the needs of their Customers and the Customers' financial statement auditors.

A SOC 1 report is issued under the American Institute of Certified Public Accountants (AICPA) reporting standards - commonly referred to as SSAE 18.

Previously these reports were referred to as SSAE 16 or SAS 70 reports.  A SOC 1 report obtained through the MSPAlliance's certification program will also meet the reporting requirements outlined under the International Standards on Attestation Engagements (ISAE) No 3402 - referred to as ISAE 3402.

# SOC 2 Overview

**SOC 2 audits** are available to service providers under the MSP/Cloud Verify program. SOC 2 audits are issued under AT-101, different from SSAE 18. A SOC 2 report is issued by independent accounting firms following a set of criteria called the Trust Services Principles (or TSP).

The TSP was established by the American Institute of Certified Public Accountants, (or AICPA). SOC 2 reports ***must** be* issued covering the security criteria and can be expanded to cover subject areas relating to availability, processing integrity, confidentiality and privacy principles.

# SOC Features

## SOC 1 (SSAE 18/ISAE 3204)

- Type 1 or Type 2 options
- includes MSP/Cloud Verify
- includes readiness consulting
- access to templates
- reports customized for your MSP or cloud practice

## SOC 2 (issued under AT-101)

- Type 1 or Type 2 options
- includes MSP/Cloud Verify
- includes readiness consulting
- access to templates
- reports customized for your MSP or cloud practice

# What's expected from me?

## *Getting audited shouldn't be a full-time job...*

**Our team of trained and experienced global auditors can leverage the MSP/Cloud Verify to significantly**

- **a) decrease the engagement time**
- **b) maintain out of control costs**
- **c) apply controls relevant to your business model!**

**Average time investment for type 1 engagement = ~50 hours**

**Average time investment for type 2 engagement = ~75 hours**
